Backstory

Cheser was a regular anthro dog living with his older brother named Willie until they both got lost and got kidnapped by a group of people when he was 16. There, they were both experimented on daily and Chester became a feral dog because of it, unable to walk or talk anymore. Willie found him like this and they both escaped. Although Willie feels bad about it, Chester is content with his condition and doesn't seem to mind the fact that he can only be on all fours from now on.

Abilities

Unknown

Chester doesn't have a lot of special abilities. He's just a dog. If he does have abilities, Willie would know about it

???

There is something going on with Chester, but it is not clear what that something is yet.

Strengths

Chester is really fast and durable for a dog. Chester is also really flexible and has quick reflexes, able to fit and get past any tight shape, corner, and hole. His high energy also makes it really difficult to tire. In fact, he is more like to tire the opposition out than himself.

Weaknesses

Because Chester is a feral dog, he is incapable of walking or talking. Only crawling and barking. Chester is also weak to magic. He gets easily knocked out if hit with too much magic. He also cannot focus very well and is easily distracted and manipulated when Willie is not around, often falling for whoever gives him the most doggie treats.

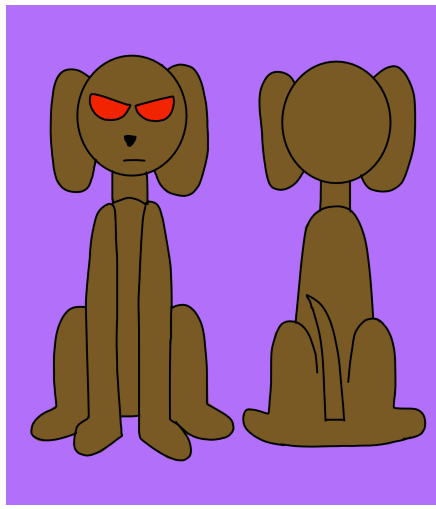

Relationship with Willie

Willie and Chester are brothers who are loyal to each other and will do whatever it takes to protect each other from harm.
