Backstory

He used to be a kid living in the planet known as Scalaris, he was one of many kidnapped test subjects that forced him and his would-be people to Earth for Clementia Labs. And in retaliation upon arriving on Earth. He would months later charge an escape plan that resulted in him awakening his kaiju powers. This destroyed the facility and eventually was taken in by an elder skeletal orca assassin named Orque Raphael. Who had been in his shoes before.

Realizing that the people need a place to live, Ryujin with Orque as his guide, he was dubbed the King Of Regnum Caverns and founded a city inside the cavernous depths. It wouldn't be until a boy named Hikaru will this life in secret come to an end. Though the kingdom was exposed by Clementia Labs truly, because of the press giving the Regnum Caverns giving good name, Ryujin was happy that he and his people now have a place in this society of fame. These days, Ryujin takes up work as a wrestler known as Bravagon.

Abilities

Overwhelming Strength

While not a unique strength, Ryujin carries immense strength whether in the ring and more so in his kaiju form

Flame/Lava Breath

A classic staple move of every dragon character. Though his flames are stronger as burst shots rather than the usual beams of fire. He also has a lava variant.

Fast Burrowing

He can dig at really fast speeds with his super powerful claws. It's more powerful with his kaiju form, but it's strong enough to cut through up to materials as strong as steel.

Kaiju Form

He can basically turn into a giant monster as his moves become much more powerful. This form is only ever used in emergencies cuz he wants to avoid collateral damage as much as possible.

Smoke Recovery

While it does little, smoke is actually healthy for Ryujin and can slightly recover faster when inhaling smoke.

Viralium Artes

Much like Hikaru, Ryujin has his own kit Viralium Artes. He's newer to the scene, so he has less to work with.

- Burrow Piledriver (Pushes a target into a quickly burrowed pit. Throws them back) (50)
- Flame Burst (A fire burst projectile shot from the mouth) (100)
- Lava Cascade (Spits out a barrage of magma rocks encased with lava) (250)
- King's Fury (A barrage of claw swipes that tear the opponents caught in it.) (500)
- Tremor Quake (Ryujin's 1st Critical Time Arte. He makes the earth bend to his will. Follows it up with a larger Flame Burst)

Strengths

Surprisingly Great Leadership

He may not look like it, but given his time as The King Of Regnum Caverns, he's surprisingly a great leader figure despite how reckless he can be.

Tenacity

Much like Hikaru, he too is also a tenacious opponent although moreso with strength in heavy hits rather than a series of blows. Harder is how he puts it.

Sized Strength

Pretty much a given anytime that Ryujin is in his kaiju form. And his attacks are stronger to boot given the kaiju form as an added bonus.

Tank

He can take heavy hits pretty well. And it complements to his powerful attack power as well. His tough scales help sell that image well.

Weaknesses

Honorable to a fault

While Ryujin is a very honorable man, this is a fault that can blindside him from behind..

Temper Rage

If he ever gets into a temper, that would lead to Ryujin being more and more irritated at the opponent. It makes him lose control of himself, but not to the point where he'll go feral.

Ground Fighter

Ryujin's more powerful in the ground, so fighting in the air isn't exactly a viable option. He can take on midair opponents, but it'll be a challenge for him.

Attack Charging

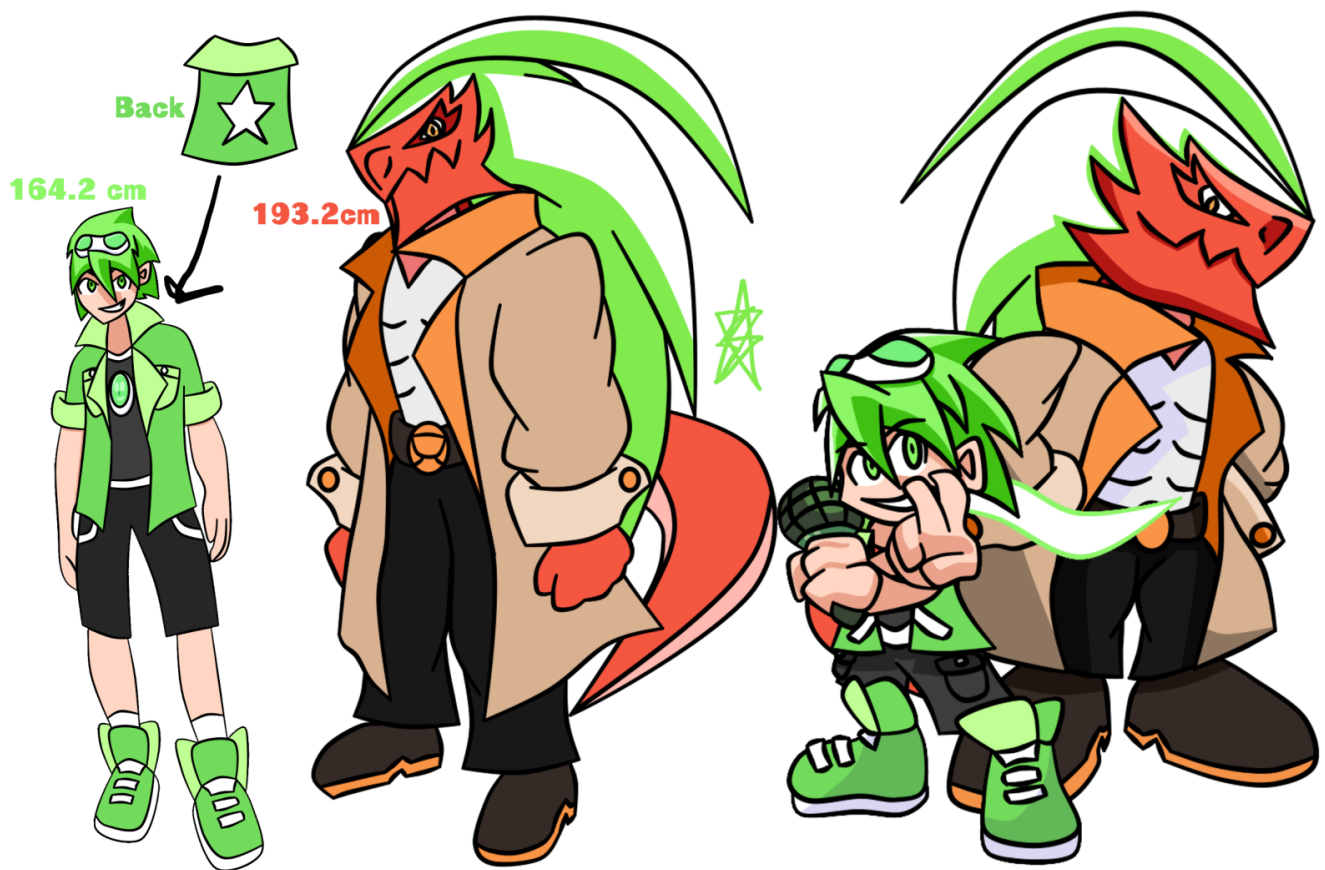

For some of his stronger variations of the moves he has, he has to charge them up for them to work. He's not completely adapted to the Viralium, so he's still learning how to fight with it at all

times rather than all at once.

Trivia

- His voice claim is Veldora from Tensura.
- Despite his looks, he's surprisingly a great chef. He especially loves to make his trademark curry.
- If your OC is a fellow wrestler, expect him to go and try to befriend them.
- Whenever Ryujin is about to go kaiju, expect him to toss his coat and tank top Yakuza style

Author's Notes

To be honest, making Ryujin was honestly straightforward since I really loved the whole A Boy And His Monster trope. I wanted to play around that but make him a big bro my main character can rely. Though he takes an assist role, he is still a fun guy to be around.
