

Saki

You're a strange one, even by Crossroads' standards. Surely that's a new record. How about celebrating with a drink?"

-- Saki

A tempered heat, mixing concoctions with ease and grace. Her deep wine-red hair is tamed by a golden tie of impossible strength. Her pointed ears and horns, along with her underbite and lion's tail, put her oni heritage on full display. She wears the garb of a bartender, complete with an apron that pays homage to her family. She passes you over with barely a glance before condensing your soul into a concoction of spirits, sliding a glass to you as if it were nothing unusual.

Backstory

Saki comes from a long line of brewers, and was slated to inherit the family business when the time came. However, Saki had been branching out with alchemy, and refining her recipes inspired her to strike out on her own. Not wanting to compete with her family's establishment, she sought a new location to open her first tavern.

A fated encounter with a celestial fox brought her to Crossroads. There, she brawled her way through the fabled tournament and earned a wish from the God Eater herself. Saki was granted what would come to be known as the Fox Den, fully furnished and stocked with everything she could possibly need.

Despite this grand achievement, Saki doesn't think much of winning the tournament. She sees it as a means to an end to earning the Fox Den, her true pride and joy. Due to this, Saki will not talk about her experiences as a competitor unless asked.

Job & Skills

Saki owns and maintains the popular tavern known as the Fox Den. She also acts as a medic of sorts for competitors- though she is by no means an accredited doctor. Saki's solution to most injuries seems to be a good alcoholic drink (or a virgin one for the kiddos). That being said, she can easily sense one's drink preferences and craft them the perfect beverage. Making small talk comes naturally to her, and many years of chatting with folks from all walks of life has resulted in her not being fazed by much, often remarking that she has seen and heard everything by this point.

Location

Saki can be found almost exclusively at the Fox Den, the ever-popular tavern for locals and travelers alike. Since it is always busy, Saki rarely ever leaves the bar. If she were to step away, it's most likely to take a very drunk Chiifu to her private apartment above the VIP lounge.

It is considered unwise to steal from the bar while Saki is away. She always seems to know when theft happens, and who was responsible. There are rumors among the regulars that she has eyes everywhere in the tavern, which may or may not be true.
